Scorer and Assistant scorer's job checklist

Scorer

- The work of the Scorers is very important. They must work closely with the SECOND REFEREE, and if for some reason the scorer is not ready to commence, they must make sure, the SECOND REFEREE is immediately informed of this. The SECOND REFEREE should not allow play to start until the scorer has finished his/her work.

- The scorer should inform the SECOND REFEREE if he/she needs signatures or any other information for the scoresheet which has not yet been specially provided.

Scorer and Assistant scorer's job checklist

Scorer

In the preparation of the match

- Scorer and assistant scorer are expected to be near the playing court at least 15 minutes before the scheduled start of the match.

- Alcohol test : in case of being selected, the scorer/assistant scorer must be present at the alcohol test room, in uniform, 45 minutes before the match start time.

Location

Scorer and assistant scorer sit close to each other at the appropriate place at the scorer's table.

Scorer and Assistant scorer's job checklist

Scorer

Before the match, the Scorer must check :

- The scoresheet : check that all details as listed on the scoresheet match the actual situation. If the scoresheet is incorrect, request a new scoresheet.

- The teams compared to the scoresheet : check that the player's names, numbers, colour of uniforms, etc…, match as listed on the scoresheet and tournament schedule.

- The equipment : check that all equipment is present prior to the match. An extra filled in scoresheet, the BVB-51 and the BVB-52 forms (in case applicable) and an extra blank scoresheet should always be present.

Scorer and Assistant scorer's job checklist

Scorer

After the coin toss :

- After the coin toss, the SECOND REFEREE must pass all relevant information to the SCORER.
  The same applies in case the SECOND REFEREE is required to conduct the toss between sets 2 and 3 (Rule 23.2.9).

After the match, the Scorer must check :

- The scoresheet : immediately after the completion of the match and before the captains sign, quickly check that all details are correct, and complete the Results section ASAP.

Scorer and Assistant scorer's job checklist

Assistant Scorer

- The ASSISTANT SCORER must be of the same competence as the SCORER and work in close coordination with him/her. If for some reason the scorer is unable to continue working he/she will take over the respective functions.

The Assistant Scorer is responsible for the following duties :

- operates the manual scoreboard on the scorer's table, checking that all scoreboards at the court show the correct results to the audience and, if not, corrects it.
- operates the number paddles 1 and 2 for indicating the correct server in coordination with the scorer. He/she must every time follow the verbal information received from the scorer. He/she should continue to hold the paddle up until the service takes place. It is good technique that the assistant scorer follows an individual control sheet that he/she checks every time against the information received from the scorer.
- starts and ends the timing of the Technical Time Outs with the use of the buzzer/bell, where applicable. He/she can be replaced by the SECOND REFEREE in this action if no buzzer/bell available.
- Fills in the BVB-51 (where applicable).

Scorer and Assistant scorer's job checklist

General principle

- Before a set being initiated; after a TO or a TTO; after an exceptional game interruption; and anytime they have requested extra time to complete the work, the SCORER should raise both hands and inform his/her readiness, which will be then communicated by the SECOND REFEREE to the FIRST REFEREE by the use of the same signal.

- The scoreboard operator(s) should correct this ASAP.

- The timing of the TTO commences from the time of the buzzer signal.

Scorer and Assistant scorer's job checklist

Scorer

Delays in recording information

- The scorer must record information on the scoresheet as quickly and efficiently as possible.
- Don't let referees commence play until you are ready.
- Rally Point Scoring places a lot of pressure on scorers to complete their recording of each rally and resultant points. If for any reason the scorer falls behind in their scoring they should immediately inform the referees.
- Pool play system also places a lot of pressure on scorers to complete their recordings of final results on the scoresheet, as one single added or subtracted point at a given match in the pool will have an effect on the points ratio which can change the standings of the teams in the pool, jeopardizing their chances to qualify for the next round of the tournament.
- Scorers must very carefully check all relevant boxes/sections of the scoresheet (e.g.: service order boxes; team points row) while filling out the Results box.

Scorer and Assistant scorer's job checklist

Scorer

Referee incorrectly applies sanctions (e.g. :2 yellow cards same team)

- Scorer must immediately draw this to the attention of the officials.

Request in excess of allowable # of timeouts

- Scorer must immediately draw this to the attention of the officials.

Health or illness problems of scorers

- Scorer must immediately draw this to the attention of the officials.
- The assistant scorer must be ready to take over scoring at any time.

6 Ball mark protocol

There are 2 possible scenarios for a Ball mark protocol. These are:
Scenario 1 - a team request for a BMP
Scenario 2 - referee BMP request

Critical aspects with each of the 2 scenarios above, are:

If a team requests after the end of a rally

- The Scorer must start with ASSIGNING the point
- Followed by recording the BMP request details on the BVB-52 form (BMP version)

If the referee requests for a BMP

- The Scorer must NOT assign a point as no decision has been made
- The Scorer starts with recording the BMP request details on the BVB-52 form (BMP version)

6 Ball mark protocol

Scenario 1 - a team request after the end of a rally and the point was assigned

- The Scorer assigns the point at the scoresheet, and the Assistant Scorer assigns the point at the scoreboard
- The Scorer records the BMP request details at the BVB-52 form (start time (including seconds); set; score (*first score is always the one from the serving team*); team serving; team that made the request)

After the outcome of the BMP is communicated

If the result is « UNSUCCESSFUL » :

- Write the challenge outcome (UNSUC) and the score after decision. Then write the time when the match is resumed, and the duration.
- The Assistant scorer (or reserve referee in case applicable) records at the BVB-51 the Unsuccessful Request by the team making the request.
- Note: this is then followed by confirming the score with keeping the same team/player serving (*follow up as necessary at scoresheet, scoreboard and paddles*.)

#	Start time	Set	Score at time of request	Team serving	Request by (team A/B; Ref)	Type of Challenge	Challenge Outcome	Score after decision	Time match resumed	Duration
1	10:01:10	3rd set	13:10	B	A	1	SUC	13:10	10:02:05	00:00:55

7 Challenge requests

Scenario 1 - a team challenges after the end of a rally AND the point was assigned

- The Scorer assigns the point at the scoresheet, and the Assistant Scorer assignes the point at the scoreboard
- The Scorer records the challenge request details at the BVB-52 form (start time; set; score (*first score is always the one from the serving team*); team serving; team that made the request; type of challenge)

After the result of the challenge is communicated

If the footage is «INCONCLUSIVE» due to some technical failure, the prior referee's decison stands:

- Write the challenge outcome (PUNAV) and the score after decision.
  This would be confirming score with keeping the same team/player serving.

  Follow up as necessary at scoresheet, scoreboard and paddles.
